1. Purpose & Scope

This document provides the complete, category-wise document checklist for all passport application types, the annexure reference guide, and procedures for resolving document mismatches. It is the definitive reference for PSK counter officials during document verification and for applicants preparing their application.

1.1 General Documentation Principles

- All documents must be submitted as self-attested photocopies along with originals for verification at counter
- Documents must be in English or a recognised Indian language (with notarised English translation if needed)
- All photocopies must be on A4 paper; handwritten copies are not accepted
- PSK officials verify originals at the counter and return them to the applicant
- Any discrepancy between documents must be resolved before the application can proceed

2. Universal Documents (All Categories)

The following documents are required for every passport application, regardless of category or application type.
